Green = Time to order!

Red = You won't meet our minimum 125 Gallon order

To avoid a short order fee of \$29.00 your tank needs to accept 90% of our minimum delivery of 125 gallons regardless of tank size. For example if you have a 275-gallon tank, you should order when your tank is half full or lower.

If your gauge is not working, please contact one of our Neighborhood Service Providers to have it replaced. We do not excuse the short order fee for any reason including gauge malfunction.

Print this and post it near your oil tank.
